## **CARE OF THE PROPERTY**

### **Getting to Know your Residence:**

When you move into a property, it is helpful to know where important items are located. Take the time to know or locate the:

- Main circuit breaker in the event power goes out.
- Gas shut off valve – turn off during emergencies / disasters for safety.
- GFI plug(s) - so you can check them if your plugs or appliances in the bathroom, kitchen, patio or garage fail to work.
- Carbon monoxide and smoke detectors.
- Electric and/or gas meters to check your utility bills
- The main water shutoff valve in case of major flooding
- Water shutoff valves below the sinks and behind toilets in case of water leaks.
- Method of cleaning for the oven so you can use the right products.
- Time bake knobs on the oven- in the event the oven will not work, these may be on.

If you are uncertain about any of the above items, contact your REAL ESTATE EIGHT THREE ONE Property Manager for help.

## **MAINTENANCE**

When you rented the property, your lease contained detailed maintenance instructions. Please review them before requesting a work order. REAL ESTATE EIGHT THREE ONE has more tips in this handbook.

### **Tenant Renovations/Alterations:**

It is the REAL ESTATE EIGHT THREE ONE policy that tenants do not do repairs or alterations. You agreed to this in the REAL ESTATE EIGHT THREE ONE Rental Agreement. If you do want to make a special request for renovations or repair to the property:

- Submit your request in writing before making any changes

- Do not proceed with any work until you are notified by REAL ESTATE EIGHT THREE ONE in writing.
- If the request is acceptable to the owner, tenants must do one of the following prior to vacating the property
  - Leave the alterations if this is part of the owner's condition to accept the alteration/repair.
  - Return the property to its original state if this is part of the owner's condition to accept the alteration/repair and pay for any necessary repairs to restore the alteration/repair to its original state.
  - Sign a REAL ESTATE EIGHT THREE ONE agreement regarding the alteration/repair.

### **Tenant Maintenance Responsibilities:**

The property owner has a duty to maintain your residence to uniform codes of safety for landlord/tenant law. Therefore, REAL ESTATE EIGHT THREE ONE has provided you with a Maintenance Request form through your online tenant portal to use when there are legitimate repairs. We want you to report maintenance items.

However, there are items that are the tenant's responsibility and we have listed them again.

- Replacing smoke and carbon monoxide detector batteries.
- Reporting non-functioning and carbon monoxide alarms immediately if batteries do not solve the problem.
- Replacing light bulbs with the correct size.
- Replacing furnace filters, if applicable, every 12 months.
- Reporting all necessary repairs.
- Professional steam cleaning and spot cleaning of carpets while residing in the property.
- Normal insect control such as ants
- Normal rodent control, such as mice.
- Landscape cleanup if a service is not provided
- Reporting lack of landscape cleanup if a service is provided in your rental agreement.
- Landscape watering unless there is a homeowner's association.
- Reporting malfunctioning irrigation systems or sprinklers even if it is the responsibility of an association.
- Disposal of all garbage in the proper receptacles and using the weekly pick up service.
- Disposal of animal feces on the property even if you do not have a pet.
- If the residence has a fireplace, use caution and care when operating the fireplace and disposing of ashes or coals. Do not dispose of coals in the fireplace until they have cooled outside for a week.
- Check to see if damper is open before starting a fire in the fireplace
- Disposing of toxic waste properly in accordance with local and county laws.

## Procedures for Requesting Maintenance

Before submitting a written maintenance request:

1. Determine if there is a true emergency or a non-emergency.
2. Check to see if you can determine the causes of the problem that you are experiencing, unless you have an emergency. Read examples of various problems in your maintenance addendum.

### If there is an Emergency:

**There are few emergencies.** An emergency is a life-threatening situation such as a fire, flood, severe electrical problem, smell of gas, etc.

- Emergencies causing immediate danger such as fire, call 911.
- Emergencies involving gas call PG&E and if necessary, 911.
- Emergencies involving IMMEDIATE electrical danger, call PG&E or 911.
- After contacting one of the above sources, then call the REAL ESTATE EIGHT THREE ONE office and report the problem.
- Emergencies such as flooding- call REAL ESTATE EIGHT THREE ONE.
- An emergency is **not** lack of heat, but REAL ESTATE EIGHT THREE ONE recognizes this is important and will make it a priority with vendors to have the heat working as soon as possible.
- An emergency is **not** backed up plumbing (turn off water valve behind toilet), not working air-conditioning, non-working dishwasher, non-working water heater, etc.

### Non-Emergencies

- Work orders are initiated through the tenant portal or the Maintenance Call Center at 866-373-7146
- Work orders must be in writing or called into the Maintenance Call Center. REAL ESTATE EIGHT THREE ONE staff does not accept verbal maintenance requests.
- Once the request is received, A REAL ESTATE EIGHT THREE ONE representative will assign a vendor to contact you.
- REAL ESTATE EIGHT THREE ONE has keys to each residence and will give them to the appropriate vendor when a work order is requested.
- Vendors are not required to make appointments with residents, but REAL ESTATE EIGHT THREE ONE will inform you when the vendor should arrive at your residence.
- After a repair has taken place, if you have trouble, call REAL ESTATE EIGHT THREE ONE and state you had a recent repair but there is still a problem.
- Recent repair means within the last 60 days and pest control work means within 30 days.
- If you fail to report an unsolved recent repair, and there is further damage or expense, you may be responsible for the cost, per your rental agreement.

### Preventative Cleaning Tips:

Cleaning is easier when you use a “preventative approach”.

- Always put away food and wipe up food debris.
- Clean pet bowls regularly to avoid attracting ants, other insects, or rodents.
- Do not allow grease to build up in kitchens; use a sponge and soapy water regularly on counter tops, stovetops, and hood filters.
- Avoid cooking with very high heat. This will add to more grease build-up and cause damage to appliances. It can also be dangerous.
- Avoid mildew by venting rooms and bathroom properly, particularly after baths/showers by using exhaust fan.
- Clean bathroom tile or other surfaces regularly to prevent the buildup of grime.
- Do not use wax on linoleum or tile.
- Do not use “cleaning products” on tile.
- Vacuum all flooring regularly, particularly carpets and consider annual carpet cleaning.
- Regularly pick up debris and pet feces in outside areas.

### Alternative Cleaning Tips:

It is not always necessary to purchase expensive cleaning products. Vinegar, baking soda, ammonia, and salt are some inexpensive cleaning products with many uses. They also are helpful for people who have allergies to cleaning products. They can be better for the environment than commercial products.

- Air freshener- Place a bowl of vinegar in the kitchen or bathroom to absorb odors.
- Drains- For a great once-a-month drain cleaner, pour ½ cup baking soda into the drain, follow with ½ cup white vinegar. It will foam, cover and let it sit for 30 minutes and then flush with cool water.
  - For stubborn, slow-running drains, pour 1-cup baking soda and 1 cup salt down the drain. Follow this with 2 quarts boiling water, let it sit for 30 minutes and then flush with cool water.
- Tile countertops- To clean ceramic tile, use a combination of ¼ cup baking soda and ½ cup white vinegar, 1 gallon warm water, and 1 cup ammonia. Alternatively, regularly clean kitchen surfaces by using a spray bottle mixed with ½ cup vinegar and a quart of water.
- Glass cleaner-when glass-cleaning products leave residue on bathroom mirrors, mix 3 tablespoons of vinegar with a quart of water in a clean plastic spray bottle. Spray glass and wipe with a clean paper towel.
- Dishwasher- empty the dishwasher, pour in ¼ cup vinegar and run the dishwasher again. Even if you prefer not to use the dishwasher, run at least once a week to keep seals from becoming hard and cracked.

- Refrigerators-clean regularly and place a cup of baking soda in a bowl on a refrigerator shelf to absorb odors. A cup of dry unused coffee grinds can also absorb odor when placed on a refrigerator shelf.
- Washing machines- a 1/2 cup of baking soda can be added to the washing machine with regular detergent to help with mild odors.
- Toilets- remove waterline marks in the toilet bowl by pouring in 2 cups of white vinegar, let it soak overnight, then flush to rinse. If this doesn't work, rub the waterline mark with a wet pumice stone.
- Carpet stains-vacuum the carpet if the stain is dry. If the stain is still wet, blot gently to remove excess (blot, do not rub). If this fails, consult a professional carpet cleaner immediately; the longer you wait may mean the stain may not come out.
- Carpet odor-regular vacuuming cures most carpet odors, but if carpet odor still persists, lightly sprinkle carpet with baking soda and vacuum thoroughly, removing all baking soda from carpet. Repeat as necessary.

### Energy Saving Tips

Saving water is important for the environment, especially during times of drought, and can mean a lower utility bill for your residence as well.

- Always report water leaks to REAL ESTATE EIGHT THREE ONE as soon as possible.
  - Report water dripping under sinks.
  - Running toilets are big water wasters
  - Report malfunctioning sprinklers
  - Report standing pools of water
  - Report malfunctioning water appliances such as dishwashers and washing machines that come with the property.
- Run the dishwasher when it is fully loaded.
- Replace your old washing machine with an energy efficient one- you could save the cost of the machine in water and energy bills.
- Check water hoses on washing machines for leaks; change hoses every three years.
- Adjust the water level to match the load, use less water for small loads.
- Avoid using flushing toilet to dispose of ordinary trash.
- Take shorter showers.
- Avoid letting the water continually run while shaving, brushing your teeth, or washing your face.
- Be sure your water heater temperature is set properly. Note: do not turn the water heater up to the "high" setting, this is dangerous temperature level.

- Counsel all children on how to prevent wasting water
- Do not “over water” landscaping it is not healthy for the plants and it simply wastes water.

### To Lower Air-Conditioning Bills:

- During warm or hot months, close the windows and doors to your home early in the day to keep the cool air in, particularly when the air-conditioner is running.
- Close window coverings on the sunny side of the house during different times of the day; this can lower the temperature dramatically.
- Replace the air filter often and with the right size, at a minimum of every three months, monthly if you smoke. A lean filter helps the air-conditioner to run more efficiently.
- When leaving your residence, turn the air-conditioner up a few degrees, a closed house without activity normally stays cooler. This is particularly important when going on vacation.
- There is no reason to keep the residence in a frigid state while you are gone, but do not turn of the air off on very hot days-it will only take longer and more energy to cool down.

### To Lower Heating Bills:

- During the cooler months, keep all windows and doors tightly closed.
- Report any major drafts to the REAL ESTATE EIGHT THREE ONE office.
- Use a “reasonable” level of heat in the residence. Sometimes, turning down the heat just a few degrees can reduce an energy bill.
- Turn the heat down during the night and use warm covers and comforters.
- When leaving home, turn down the temperature on the thermostat.
- Do not turn the heat completely off. It will take more heat for a cold house than it will save. In addition, this could cause pipes to freeze, which will cause more problems (not necessarily a problem in Santa Cruz County).
- If there is a fireplace, close the damper if you are not using it, but please be sure to open the damper if you do start a fire.
- Replace the furnace filter often, at a minimum of every three months. A clean filter helps the furnace to run more efficiently.

## RENTER INSURANCE

Property owners generally carry a standard fire and liability policy, and have additional coverage with “landlord/rental” insurance, but they normally cannot cover the contents or possessions of the resident. The reason that insurance companies do not provide this type of coverage is because they are “non-owner” occupied properties. Therefore, it is very important for you to have adequate insurance coverage for your contents.

If you think it is not important, sit down and write out a list of your possessions in one column. In a second column, list how much it would cost to replace them. You will be surprised how the list can really add up.

Contact an insurance agent if you do not have renter insurance. You can find them by a search on the Internet, ask a friend, or ask REAL ESTATE EIGHT THREE ONE to refer you to a good company. The Internet can also provide both information and comparison-shopping. **To avoid a loss, acquire renter insurance now.**

- Be prepared and use the REAL ESTATE EIGHT THREE ONE Emergency/Disaster checklist enclosed with this information.
- When major emergencies or disaster such as an earthquake, flood, tsunami or some other force of nature occur, everyone experiences great inconvenience and difficulties. Remember this and be considerate of others and the degrees of different problems.

*Why did I receive a notice when I paid the rent on the 7<sup>th</sup> of the month?*

- As outlined in this Handbook before and in the rental agreement, the rent is due on the 1<sup>st</sup> and late if not received by the 3<sup>rd</sup> of the month.
